MORE THEN SIXTY YEARS OF AMPLE EXPERIENCE

SOLUTIONS FOR THE PROCESS INDUSTRY

VERMEER EEMHAVEN INTERNATIONAL
Specialists in heat exchangers

Vermeer Eemhaven International B.V.

Vermeer Eemhaven International established in 1955, is an efficient specialist in the design, manufacturing and installation of heat exchangers for the industrial market. Our productrange consists of s&t heat exchangers, helixchangers®, condensers, re-boilers, transferline exchangers, texas & helitowers®.

VERMEER PROCESS
Specialists in process filtration

Vermeer Process Technology B.V.

Vermeer Process is specialist in process filtration joined the VE Group in 2004. As designer, trouble-shooter, manufacturer and we work together with our clients to design and the best solution that fits the clients needs. To us, efficient filtration means attention to filter efficiency, redress life and offer an excellent price-quality ratio.

VERMEER THERMEX INTERNATIONAL
External process heating systems

Vermeer Thermex International B.V.

Vermeer Thermex International is a specialist in external process heating systems. With 30 years of ample experience we design, manufacture and and install the "ThermEx Thermal Maintenance System" maintaining the required process temperature enabling melt-out requirements. Our system is a cost efficient alternative to jacketed pipe.

VERMEER SITE SERVICES
Specialists in onsite maintenance & repair

Vermeer Site Services B.V.

Vermeer Site Service specializes in emergency repair and maintenance of process equipment since 1993. Our service teams are available around the globe and are based in Europe and the Middle East. With over 25 years of experience we act as an maintenance advisor to many of our endclients.

VERMEER DENVER INTERNATIONAL
Specialists in industrial valves

Vermeer Denver International B.V.

Vermeer Denver International is a specialist in industrial valves for the petrochemical industry and power generation. For more then 25 years we deliver high pressure valves for use in corrosive and abrasive applications. Custom made valves or complete packages which meet the highest quality standards.

VERMEER INDIA B.V.
Specialists in engineering and calculation

Vermeer India B.V.

Vermeer India acts as our engineering back office since 2009. A highly educated professional team is able to handle all qualifications and requirements from customers and codes around the globe. With a team of 20 mechanical and process engineers Vermeer India provides support to all companies in the group.

SYNERGY

Normal process

Process VE Group

THE ADVANTAGES OF CHAIN EFFICIENCY ARE

- Reducing cost
- Knowledge
- Quicker turn around
- One stop solution

THE PRODUCTS

Based on our knowledge and experience we design, manufacture and maintain various types of equipment for the petrochemical industry. We do this using a choice of all available stainless steel materials as well as high nickel alloys and such exotic materials as titanium and zirconium. With our knowledge in the area of welding techniques and our experience in the petrochemical industry, we produce such high quality specialised products as:

Heat exchangers - Filters - Pressure vessels - Columns - Crystallizers - External process heating systems - texas & helitowers® and helixchangers®

VISION

The vision of the VE Group is to be an reliable partner for the industrial market in the field of process and energy technology. This comprehends all facets of the total process. From the client's challenge through the installation and service of the perfect product.

Innovation - engineering - production - assembly - repair - service.

MISSION

Knowledge

With more than 60 years of experience, the company has demonstrated its use of knowledge to design, manufacture and install state-of-the-art process equipment.

We maintain all disciplines within one company

As total supplier, together with the client, the VE Group can produce a high qualified product and offer a one stop solution.

We keep our commitments

Both internally and externally: a commitment is a commitment!

One quality, one company, one team

SPECIAL EQUIPMENT

- Automatic Tube-tube sheet orbital welding
- Automatic Multi-spindle drilling machine
- Automatic Cutting Machine
- Electron Beam Welding
- Internal Bore Welding
- Clad Welding
- Deburring robot
- Reconditioning robot
- Automated submerged arc welding
- CNC Drilling
- CNC Milling
- CNC Lathe
